Milk Fibre masks - Each year, thousands of gallons of milk are poured straight down the drain. Stepping in, Milk fibre fabric, transforming old soured milk into a tender, plush environmental friendly fabric.

Introducing our Milk fibre masks, which, along with keeping your skin hydrated & nourished, are also anti-microbial and have been known to be used as technical textiles. They are dermatologically tested to cause no irritation to the skin, are UV resistant and are breathable.

Orange Fibre masks - Being made from discarded oranges/citrus waste, Orange fibre masks are enriched with citrus fruit essential oils, which results in a vitaminic textile that keeps your skin nourished and hydrated. They are breathable and certified to be anti microbial and UV resistant.

# **PERSONAL PROTECTIVE EQUIPMENT**

PPE KITS

The Protective equipment consists of garments placed to protect the health care workers or any other persons to get infected. These usually consist of standard precautions: gloves, mask, gown. If it is blood or airborne high infections, will include: Face protection, goggles and mask or faceshield, gloves, gown or coverall, head cover, rubber boots

### NIOSH-Approved N95 Respirators

Particulate respirators are designed to help reduce the wearer's exposure to airborne particulate hazards. In the U.S., respirators are tested and certified by the U.S. National Institute of Occupational Safety and Health (NIOSH). NIOSH tests and certifies respirators based on their physical and performance characteristics, including filtration efficiency. For example, N95-rated filtering facepiece respirators have a filtration efficiency of at least 95% against non-oily particles when tested using the NIOSH criteria. The particles used to test the filtration are in a size range that is considered the most penetrating. Therefore, the test methods ensure that the filter media can filter particles with at least 95% efficiency.

## INSTANT HAND SANITIZER:

80% Ethanol Alcohol based palm cleanser that remove germs to keep you safe from infection-causing possibilities!

**FOR ALL PURPOSE & PLACES:** The instant hand sanitizer can be used anywhere. Ideal for hospitals, schools, offices, gyms, etc.
